

Who is the “Next Step” program for? What will be covered?

- “Next Step” group lessons are ideal for advanced beginner and intermediate golfers who need to fine tune their fundamentals and develop fine motor skills to add touch and precision to their game.
- Learning how to practice efficiently and how to make a repeatable swing are key to reaching your potential.
- Players will review the rules of golf, with an emphasis on common rules errors and an explanation of various forms of play.
- Building confidence plays a key role in the level of skill you will achieve, therefore each lesson will begin on the putting green.
- Skill development will include: short game, full swing, driving, bunkers, trouble shots, and strategy.
